BEVELLED PATIO DOOR

Refresh your home, invite the outside in.

Patio doors can help create a fresher and lighter atmosphere in your home. Sliding patio doors are designed to give a sense of space and a clearer view of your outside area. Their slim sight lines allow you to see less frame and more of the outdoors. Designed for insulation and ease of use, our patio doors offer smooth opening to support everyday living.

Features & Benefits

- Designed for great thermal performance to support comfort throughout your home.
- Versatile across the full product range with ancillaries to suit your home's layout and needs.
- Tested weather performance to help protect your home from the elements.
- Can be specified to meet PAS 24 requirements when using compatible hardware tested to BSI standards.
